

# AMERICAN COUNCIL ON EDUCATION MILITARY PROGRAM RESOURCE LINKS

## BACKGROUND

The **American Council on Education** <<http://www.acenet.edu/>> (ACE) is the only higher education organization that represents presidents and chancellors of all types of U.S. accredited, degree-granting institutions: community colleges and four-year institutions, private and public universities, and nonprofit and for-profit colleges. This cross-sector membership enables ACE to serve as higher education's unifying voice.

**The Military Programs** <<http://www.acenet.edu/militaryprograms>> department provides institutions with a basis for recognizing military educational experiences in terms of academic credit. For more than 60 years, ACE has reviewed and made credit recommendations for thousands of college-level courses offered by the military services. In 1974, ACE started the evaluation of military occupational specialties as well.

**Serving Those Who Serve** <<http://www.acenet.edu/STWS>> is a broad-based initiative designed to promote access to and success in higher education for more than two million service members and their families who are eligible for newly expanded benefits under the Post-9/11 Veterans Educational Assistance Act of 2008.
